

PRODUCT INFORMATION SHEET

100 GRAM SILICA GEL SACHET NON-INDICATING, IN NON-WOVEN FABRIC

This desiccant sachet contains 100% non-indicating (white) silica gel.

It is enclosed in a heat-sealed PET/PE composite non-woven fabric.

It will adsorb moisture from sealed spaces to prevent corrosion and mould growth.

Specification

SILICA GEL The non-indicating silica gel used in the sachet conforms to BS7554:1992. It will adsorb up to 40% of its own weight in moisture.

SACHET The sachet material is a heat-sealed 55 g/m² composite non-woven, a highly durable laminate of polyester and polyethylene fibres, which provides strength alongside excellent air permeability.

The sachet is approximately 170 x 80 mm in size and contains, when made, 100 grams +/- 4 grams of silica gel.

PRINTING Sachets are printed
