

## **PRODUCT INFORMATION SHEET**

### **250 GRAM SILICA GEL SACHET NON-INDICATING, IN NON-WOVEN FABRIC**

This desiccant sachet contains 100% non-indicating (white) silica gel.

It is enclosed in a heat-sealed PET/PE composite non-woven fabric.

It will adsorb moisture from sealed spaces to prevent corrosion and mould growth.

#### Specification

<b>SILICA GEL</b>	The non-indicating silica gel used in the sachet conforms to BS7554:1992. It will adsorb up to 40% of its own weight in moisture.	
<b>SACHET</b>	The sachet material is a heat-sealed 55 g/m <sup>2</sup> composite non-woven, a highly durable laminate of polyester and polyethylene fibres, which provides strength alongside excellent air permeability.  The sachet is approximately 185 x 125 mm in size and contains, when made, 250 grams +/- 5 grams of silica gel.	
<b>PRINTING</b>	Sachets are printed	DESICCANT SILICA GEL 250 GRAMS DO NOT EAT
<b>PACKAGING</b>	60 or 70 sachets per heavy gauge polythene bag (with 30% recycled content) with a 3 spot (30-40-50%) Humidity Indicator Card and a releasable tie inside a carton. Up to 50 cartons per pallet.	
<b>STORAGE</b>	Cartons should be kept closed and in a dry place.	
<b>SHELF-LIFE</b>	One year.	
<b>TOXICITY</b>	Non-toxic.	

The above represents our standard sachet of this size/type.

Variations on this specification can be manufactured to customers' requirements.
