

## Product Specification Sheet: Mini Reel 100mm

### General description:

Mini 100's is a low noise co-extruded cast pallet stretch wrap product. It is designed for hand wrapping with a maximum stretch of 50%.

### Composition:

Mini 100 is a co-extrusion of LLDPE's. The polymers used are designed to give the film good strength and stretch properties. Mini 100 is made with cling on the outside of the reel.

### Properties

	Properties	Test method
Tensile stress at break (N/mm)	MD 20,5 TD 14,6	ASTM D882-01
Breaking Elongation (%)	MD 390 TD 530	ASTM D882-01
Tear resistance (mN)	MD 3000 TD 4900	ASTM D1922-00a
Impact Strength (g)	MD 200	ASTM D1709-01
Cling (g)	125 105 SC/CS	ASTM D5458-95
Yield Tensile stress	MD 7,4 TD 7,5	ASTM D882-01
Force to stretch	26	

Tolerance 10%.

### Dimensional characteristics

	Target	Tolerance
Width	100mm	+/- 3%
Length	300mt	+/-
Thickness	15my	+/- 10%
Net Weight	414grams	+/-10%
