How to use the 3d Tape Configurator

Contents

Start

Once you have clicked the Start Designing button you will see the configurator open and a selection of tape core sizes.

Simply click on one of the sizes to start configurating.
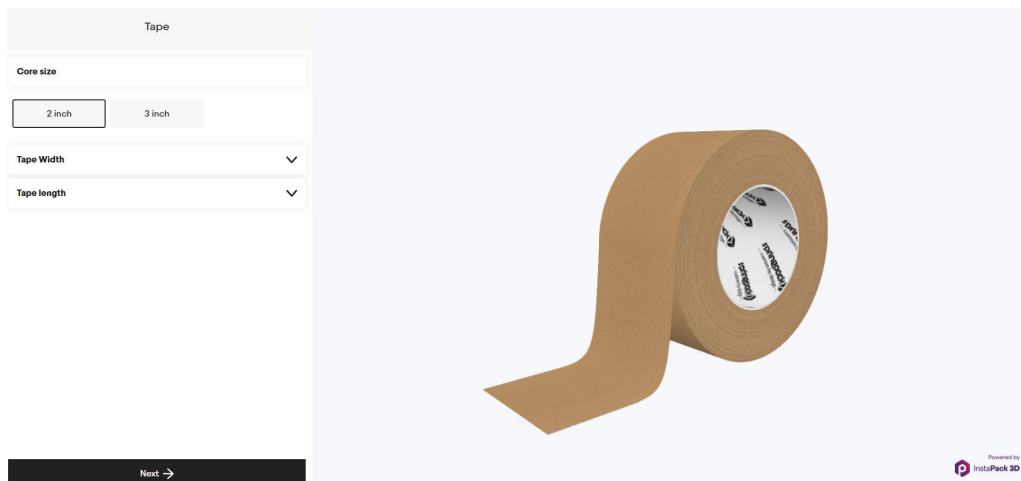

Change the Width of the Tape

To change the width of the tape you need, click Tape Width an then the size you require.

Tape Width

48 mm	50 mm	70 mm

Change the Length of the Tape

You can select from either 50 meters or 20 meter tapes.

Tape length

| 50m	200m

Adding Artwork to the Tape

To add your own branding to the tape, first click Next and then the green Artwork button.

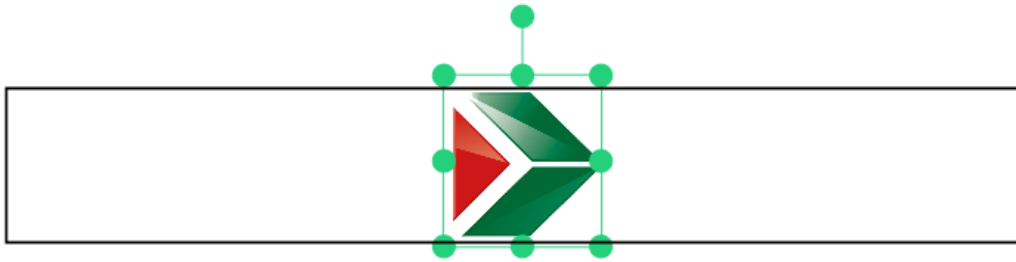

Now the icon on the top right corner (   )

Then select the image or images you would like to add to the tape.

Upload Images ✕

Drag or click to upload
(.jpg, .jpeg, .png, .pdf)
(Max 16MB)

Confirm

Now that you have selected your images or images to the box you will see them on the 3d model. Here you can move them along the tape.

With the image selected you will see that a toolbar will appear at the top of the screen.

Here you can move the image up or down, duplicate it or remove it. The arrows allows you to expand the screen to give more visibility.
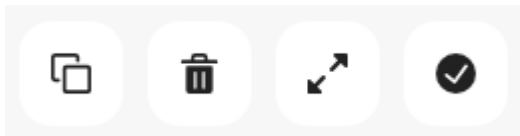

Once you are happy with the design simply click the Tick on the top toolbar ( )

Now you will be returned the start screen, where you need to click Go to Summary.
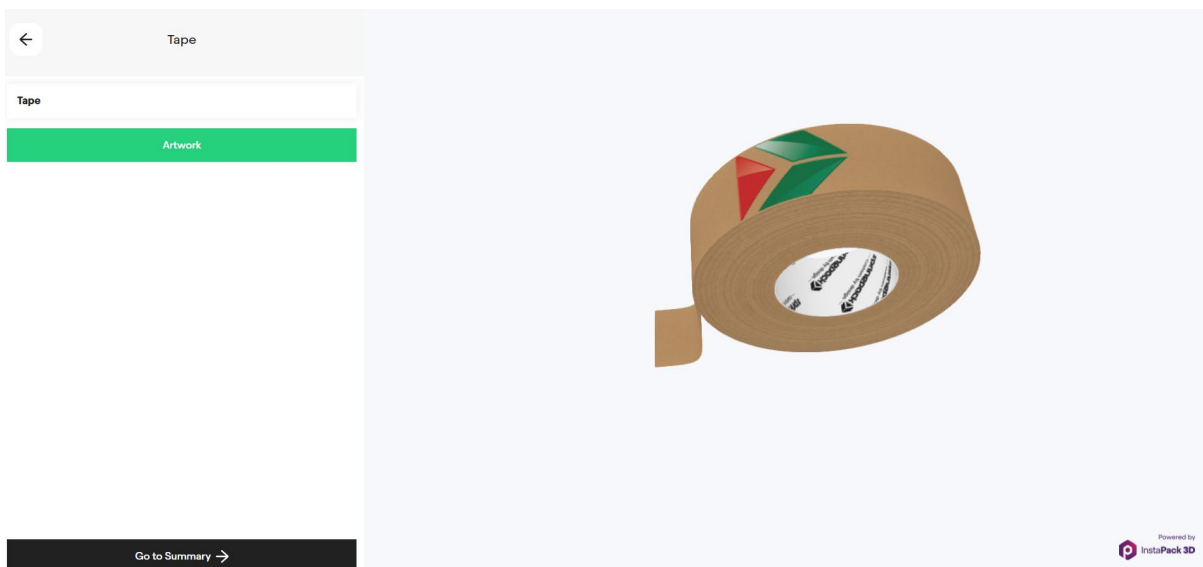

Submitting the project over to us

Once you have clicked Go to Summary, we will need to know some simple contact information and then click submit and your done.
